The basics

- A well-composed group knows everyting. Or: everybody knows something you don't know.
- We are all learning.
- Doing = learning (so dig a little deeper)

We are working towards:

- Increasing your **competency** to deliver...
- ...**national workshops**, that are an application/adaptation of...
- ...the International Deaf Enterprise **Curriculum**

How to use this training (and us)

- Learn things you don't know yet.
- Re-appraise things you already know (and share them with others).
- Complement what isn't there.
- Ask what you need.
